

da Vinci[®] Si^{HD}
SURGICAL SYSTEM

OPEN HOUSE

Hosted by Metro Surgery Center

Metro Surgery Center is proud to announce the successful addition of robot assisted cases to our facility!

Please join us on Thursday April 25 from 4:00 pm – 7:00 pm for an interactive and hands-on robot demonstration with the daVinci Si Robot. Complimentary food and beverages will be provided.

RSVP by Friday April 19 to:

Tina Hedden – thedden@uspi.com, 480.567.0287

We look forward to celebrating with you!

Our mission is to care for every patient and their family as if they were our own. Each patient, each family, each and every time.

FI Program at Broward Specialty Surgical Center

Bowel control problems affect millions of people. It is estimated that 1 in 12 Americans is living with fecal incontinence (FI)* For patients with FI, the impact can be severe.† Research revealed patients:

- Reported more depression and lower quality of life³
- Reported bothersome symptoms of fecal urgency⁴

Broward Specialty Surgical Center is pleased to offer your patients a safe, reliable, and cost-effective solution through our FI Program.

About the Program:

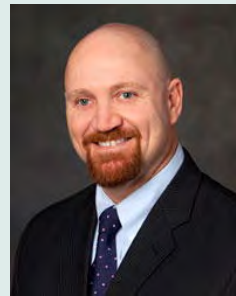

For patients who do not respond to conservative treatment options, a minimally invasive procedure with Sacral Neuromodulation (SNM), or InterStim™ may provide sustained relief.

The interstim system is a safe and proven therapy that consists of an implantable device that gently stimulates the sacral nerves to help restore normal bowel function.

To learn more about BSSC's FI program, or to meet Dr. Wayne, please call Exys Ibanez at 954-322-4222, or send an email to eibanez@uspi.com.

Meet our Program Champion:

Dr. John Wayne is Board Certified in both General and Colon and Rectal Surgery. His clinical interests include, Colon and Rectal Cancer, Laparoscopic Colon and Rectal Surgery, Colonoscopy, Surgery for Crohns Disease and Ulcerative Colitis, Anorectal Disorders (Hemorrhoids, Anal Fissures, Anal Fistula), Rectal Prolapse, and InterStim Therapy for fecal incontinence.

John Wayne, MD, FI Program Champion, Broward Specialty Surgical Center

Broward Specialty Surgical Center:

Broward Specialty Surgical Center is a multi-specialty Ambulatory Surgery Center conveniently located in Hollywood, Florida. We are an affiliate of United Surgical Partners International, partnered with local physicians, and accredited by Accreditation Association for Ambulatory Health Care. We are fully licensed by the state of Florida and are Medicare certified.

7261 Sheridan Street, Hollywood, Florida, 33024 • Phone: 954-322-4222 • browardspecialtysurgical.com

Setting the Standard for Exceptional Care

The Surgery Center of Ft. Lauderdale

Colorectal Cancer Awareness

EARLY SCREENING SAVES LIVES

Colorectal cancer is the second leading cancer killer in the U.S.

It's highly preventable and has a high cure rate if caught early in a screening colonoscopy.

Schedule your screening colonoscopy today with one of our Gastroenterologist.

For more information contact Judy Chase, administrator, or one of our physicians listed on the back of this card.

THE SURGERY CENTER OF FORT LAUDERDALE

The Surgery Center of Ft. Lauderdale complies with applicable Federal civil rights laws and does not discriminate on the basis of race, color, national origin, age, disability, or sex. The Surgery Center of Ft. Lauderdale is a facility in which physicians have an ownership or investment interest. The list of physician owners or investors is available to you upon request.

Program Overview

The myBOWEL&BLADDER Health Program aligns various surgical leaders, USPI facilities, and our patients to create trusted partnerships that deliver care optimization and complete health[®]. This physician-led, patient-centered service line can enhance the facility's portfolio of services while providing enhanced access to care for patients needing interventional procedures for bowel or bladder incontinence. Procedures under this service line can positively impact patients' quality of life for those suffering from incontinence due to underlying physical problems or changes, including but not limited to:

**previous pregnancies • changes with age • menopause • hysterectomy
enlarged prostate • obstructions • neurological disorders • stroke**

Market Snapshot

Urinary or fecal incontinence affects nearly 3,000,000 people in the U.S., and most experts suggest it is widely underreported and diagnosed due to its sensitive nature. However, factors such as an increasingly aging population, consumer education, and growing acceptance of incontinence issues are driving the market for treatment options forward.

Facility Profile

If you check two or more boxes, consider this service line:

- Does your facility already have a tower, image capture, cystoscope, and minor tray?
- Do you have OR capacity?
- Do you have gynecology, urology, general surgery, urogynecology, and/or colorectal surgeons doing procedures at your facility?
- Are you interested in meeting a market/community demand?

Physician Champion Profile

The myBOWEL&BLADDER Health Program will require a Physician Champion who has a good reputation in the community, supports USPI's commitment to quality and compliance, and is:

- A Urologist, Gynecologist, Urogynecologist, Colorectal Surgeon, or General Surgeon
- Has specialty training in sling procedures, pulsed magnetic neuromodulation, inflatable urethral sphincter procedures, and/or implant material injection
- Not trained on above procedures, but is highly proficient and willing to be trained

Community Potential

Ask these physician specialties:

- Bariatric surgeon
- Gynecology
- Primary Care/Family Practice
- Geriatric Medicine
- Physical Medicine & Rehabilitation
- Pulmonologist

For patients with these conditions/diagnoses:

- Episiotomy following childbirth
- Post-stroke or TIA
- Diabetes
- Parkinson's
- COPD
- Incontinence due to immobility
- Bowel or bladder cancer

Four Steps to Start-up

SLSG Feasibility Implementation and Support**

01

Explore

- Identify opportunity
- Initial call for service line overview:
 - Introduction of resource team
 - Program overview
 - Exploration of the necessary components for a successful program execution

02

Evaluate

- Implementation Team will take facility through feasibility assessment
- Verify feasibility; clinical and financial (pro-forma)
- Site Visit:
 - Meet with surgeon(s) to understand their vision
 - Evaluate physical plant

03

Execute

- Implementation Team supports procurement to physical plant and workflow modifications, through the first case and beyond to continuous process improvement
- Develop project scope, plan, and timeline
- Identify resources needed to fill gaps
- Routine calls to assist with implementation

04

Engage

- Where indicated:
 - Staff Education
 - Engagement Team helps facility and physician champions communicate, educate, and drive awareness of the program through proven engagement strategies

**No cost to facility.

Program Overview

The myRETINA Health Program aligns ophthalmology leaders, USPI facilities, and our patients to create trusted partnerships that deliver care optimization and complete health®. This physician-led, patient-centered service line can enhance the facility’s portfolio of services while providing enhanced access to care for patients needing vitreoretinal procedures. Procedures under this service line can restore, preserve, and enhance vision for many eye conditions including:

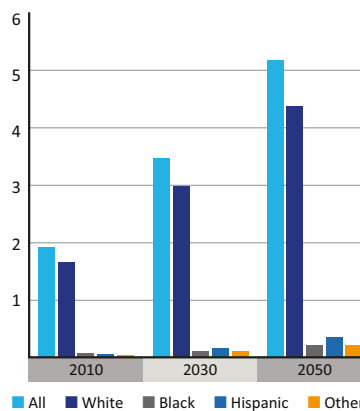

**age-related macular degeneration • diabetic retinopathy • vitreous hemorrhage
muscular hole • detached retina • certain infections of the eye**

Market Snapshot

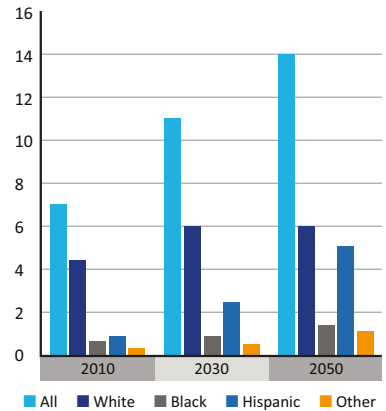

Age-related macular degeneration (AMD) and diabetic retinopathy are two of the most common eye conditions treated with vitreoretinal procedures. Both of these conditions are shown to nearly double by 2050, resulting in a growing demand for surgical intervention of vitreoretinal procedures.

Data: National Eye Institute

Projections for Age-Related Macular Degeneration in 2030 and 2050 (in millions)

Projections for Diabetic Retinopathy in 2030 and 2050 (in millions)

Facility Profile

If you check three or more boxes, consider this service line:

- Does your facility specialize in ophthalmology, with the exception of vitreoretinal procedures?
- Are you able to commit to a capital expenditure ranging from \$15K to \$400K?
- Are you able to hire staff with vitreoretinal procedure training or provide training to current staff?
- Do you have OR space that can be dedicated to vitreoretinal procedures?

Physician Champion Profile

The myRETINA Health Program will require a Physician Champion who has a good reputation in the community, supports USPI’s commitment to quality and compliance, and is:

- A fellowship-trained, Board Certified Ophthalmologist
- Trained in vitreoretinal procedures

Community Potential

Ask these physician specialties

- Endocrinology
- Optometry
- Primary Care/Family Practice
- Geriatric Physician
- Infectious Disease Specialists (HIV/CMV infections)

For patients with these conditions/diagnoses

- Age-related Macular Degeneration (AMD)
- Diabetic Retinopathy
- Diabetic Vitreous Hemorrhage
- Macular Hole
- Detached Retina
- Epiretinal Membrane

Other Start-up Facts

- Requires up to a \$400K equipment purchase, plus instrumentation
- Majority Medicare
- Average reimbursement of \$2,500 per case

Four Steps to Start-up

SLSG Feasibility Implementation and Support**

01

Explore

- Conference call or webinar:
 - introduction of resource team
 - program overview
 - describe the needed components for a successful execution
- Q & A
- Facility decides to further explore, or move forward to evaluation process

02

Evaluate

- Implementation Team will take admins through feasibility assessment
- Identified gaps are addressed
- Facility decides to move forward to implementation and agrees to project plan, OR
- Facility chooses not to pursue new service line

03

Execute

- Implementation can average 60 to 120 days
- Dedicated resources from SLSG Implementation Team in place for first case status and beyond until stakeholders are confident with their roles and responsibilities
- SLSG's Implementation Team will introduce the Engagement team

04

Engage

- SLSG's Engagement Team will provide meaningful consultation to help the facility and physician champions educate, engage, and drive community awareness of the new service line through proven strategies.
- Digital, print, liaison, direct-to-consumer, and community resources are explored

**No cost to facility.

OUTPATIENT JOINT SUMMIT

A Best Practice Forum for
Rapid Recovery Joint Arthroplasty

INTERNATIONAL

April 25 – 26, 2019
Dallas, Texas

AGENDA

7:30 – 8:00	Arrival & Breakfast
8:00 – 8:30	Welcome and Introductions Building your myJoint HEALTH Program <i>Jeannie Montgomery</i> , RN, MBA, Vice President of Service Line Innovation, USPI Service Line Strategy Group
8:30 – 9:15	Blueprint for Success <i>Deb Caraway</i> , RN, BSN, Director of Implementation, USPI Service Line Strategy Group <ul style="list-style-type: none">• Process Mapping – Framework• Order Sets• Preference Cards• Equipment• Available Resources
9:15 – 10:15	What's in the Toolbox <i>Carol Edwards</i> , RN BSN, Joint & Spine Program Manager, USPI Service Line Strategy Group <ul style="list-style-type: none">• Playbook• Patient Education• Patient Follow-up and Risk Mitigation Calls• Time Management and Organization
10:15 – 10:30	Break
10:30 – 11:00	Maintenance – Patient Follow-up <i>John Bryant</i> , RN, BSN, Quality/Performance Enhancement, USPI Service Line Strategy Group <ul style="list-style-type: none">• Reporting in EDGE• Collecting PRO
11:00 – 11:30	Question & Answer
11:30	Departure for the Anatole

AGENDA

1:00 – 1:15

Welcome – Past, Present, and Trend Projections | **Jeannie Montgomery**, RN, MBA, *Vice President of Service Line Innovation, USPI Service Line Strategy Group*

1:15 – 2:15

Through the Lens of a High-Volume TJA Program | Moderator | **Jeannie Montgomery**, RN, MBA, *Vice President of Service Line Innovation, USPI Service Line Strategy Group*

Panel Discussion:

Ann Liney, RN, *Administrator, Resurgens Surgery Center*

Tootie Kelley, RN, BSN, *Joint Coach, Resurgens Surgery Center*

Judy Van Dyke, *Administrator, Parkwest Surgery Center*

Lisa Workman, RN, *Total Joint Coordinator, Parkway Surgery Center and Parkway Recovery Care Center*

Jean L. Calhoun, RN, *Regional Administrator, East West Surgery Center and Northwest Georgia Orthopaedic Surgery Center*

Lisa Jarvis, RN, *Joint Coach, Northwest Georgia Surgery Center*

Topics:

- Brief Overview of Each Program
- Operational Efficiencies – Key Factors of Success
- Patient Education – Role of the Joint Coach
- QAPI Joint Committee – Do you have one?
- Questions from the Audience

2:15 – 3:15

Optimization of a TJA Program | Moderator | **Deb Caraway**, RN, BSN, *Director of Implementation, USPI Service Line Strategy Group*

Panel Discussion:

Leann Foltz, *Administrator, Mountain Empire Surgery Center*

Robin Hollowell, RN, BSN, *Joint Coach, Mountain Empire Surgery Center*

Steve Blom, RN, MAHSM, CASC, *Administrator, Texas Orthopedics Surgery Center*

Ressa Roberts, RN, *Joint Coach, Texas Orthopedics Surgery Center*

Regina A. Znosko, RN, BSN, CNOR, *Clinical Director, Lawrenceville Surgery Center*

Jill Thrasher, *Administrator, Baylor Scott & White Frisco Star*

Topics:

- Predictable and Reproducible Outcomes
 - Brief Overview of Each Program
 - Making the Leap
 - Staff Proficiency and Confidence
 - Lessons Learned/Pearls

3:15 – 3:30

Break

AGENDA

3:30 – 4:00

Quality Reporting | *John Bryant*, RN, BSN, *Quality/Performance Enhancement*, USPI Service Line Strategy Group

- EDGE Focus Study
- Purpose: Why is it important? Who reads these reports? And then what?
- When do we act?
- Benchmarking
- Risk Events

4:00 – 4:30

Best Practices/Trending | *Carol Edwards*, RN, BSN, *Joint & Spine Program Manager*, USPI Service Line Strategy Group

- Updates to Material
- COACH's CORNER
- Trends to Watch

4:30 – 5:15

Certification and COE | *Deb Caraway*, RN, *Director of Implementation*, USPI Service Line Strategy Group and *Donna Higginbotham*, *Regional Director, Managed Care – Southeast*

5:15 – 5:30

Technical Platforms – Robotic-Assisted Totals: What are the economics?

Jeannie Montgomery, RN, MBA, *Vice President of Service Line Innovation*, USPI Service Line Strategy Group

6:00 – 9:00

RECEPTION

AGENDA

7:15 – 8:00

Registration

Breakfast provided

8:00 – 8:30

Welcome/Opening Remarks | **Matt Pate**, Senior Vice President, USPI Service Line Strategy Group
Thoughtful Innovation – Quality First – The Innovator’s Prescription

8:30 – 8:45

Current State: Quantitative – By the Numbers | **Jeannie Montgomery**, RN, MBA, Vice President of Service Line Innovation, USPI Service Line Strategy Group

- Volume
- Trends
- Economics

8:45 – 9:45

Current State: Qualitative – Quality Assurance and Performance Improvement | **Mark W. Hanna**, M.D., Resurgens Orthopaedics, USPI Facility: Resurgens Surgical Center

- Communication, Collaboration, Care Coordination, and Coaching are critical
- People and Processes – System Support
- CQA and PI is Ongoing
- Review of Clinical Incidences
- Review of Current State Results

9:45 – 10:00

Break

10:00 – 10:15

The Holy Grail | **Stuart Simon**, M.D., USPI Chief Medical Officer, USPI

10:15 – 10:45

POSH: From the Surgeon’s Perspective | **W. Randall Schultz**, M.D., Texas Orthopedics, USPI Facility: Texas Orthopedics Surgery Center

10:45 – 12:00

Patient Selection, Risk Stratification, and Optimization | Moderator | **Stuart Simon**, M.D., USPI Chief Medical Officer

Panel Discussion:

W. Randall Schultz, M.D., Texas Orthopedics, USPI Facility: Texas Orthopedics Surgery Center

Daniel Deming, M.D., US Anesthesia Partners Central Texas, USPI Facility: Texas Orthopedics Surgery Center, Chief of Anesthesiology

John Schlitt, M.D., US Anesthesia Partners Central Texas, USPI Facility: Texas Orthopedics Surgery Center

Brad Worthington, M.D., Chief Medical Officer, GeneAlign, Medical Director, Perioperative Services and Anesthesiology, Surgery and Recovery Partners

- Risk Stratification, Screening, and Optimization – What’s Next – ASA III
- POSH revisited – ERAS – Opioid-Free Pain Management
- Antibiotic Stewardship

Depart

Orthopedic Surgeons

Jason Brashear, M.D., Appalachian Orthopedics, USPI facility: Mountain Empire Surgery Center, Johnson City, TN

Areas of Expertise:

Dr. Jason Brashear practiced at Fayette Regional in Connersville, Indiana, for three years before moving to Johnson City and joining Appalachian Orthopedics. He practices general orthopedics with an emphasis on minimally invasive hip and knee arthroplasty.

Education:

- Undergraduate and graduate studies: Ball State University in Muncie, IN
- Medical school: Indiana University School of Medicine.

Mark W. Hanna, M.D., Resurgens Orthopaedics, USPI Facility: Resurgens Surgical Center, Atlanta, GA

Areas of Expertise: Reconstructive Surgery of the Hip and Knee, Quad Sparing Total Knee Replacement, Anterior Approach Total Hip Replacement, Partial Knee Replacement, Outpatient Hip and Knee Replacement

Education:

- Fellowship: Total Joint Replacement and Biologic Reconstruction, Harvard Medical School, Brigham and Women's Hospital
- Residency: Emory University, Atlanta, GA
- Medical Degree: Columbia University College of Physicians and Surgeons, New York, NY

Stephen Kim, M.D., Resurgens Orthopaedics, USPI Facility: Northwest Georgia Orthopaedic Surgery Center, Marietta, GA

Areas of Expertise: Total and Partial Knee Replacement, Total Hip Replacement, Hip Resurfacing Surgery, Revision Hip and Knee Replacement, Minimally Invasive Joint Replacement, Rapid Recovery and Same-Day Joint Replacement Surgery

Education:

- Fellowship: Hospital for Special Surgery (Cornell University), Adult Reconstruction and Joint Replacement, NY
- Residency: Albert Einstein College of Medicine, Bronx, NY
- Medical Degree: Albert Einstein College of Medicine, Bronx, NY

Jay D. Mabrey, M.D., MBA, CPE, Orthopaedic Surgeon and Consultant, USPI OP Joint-Advisory Panel, St. Petersburg FL

Areas of Expertise: Total Hip and Knee Replacement, Rapid Recovery and Same-Day Joint Replacement Surgery, Hip and Knee Arthroscopy, Joint Wellness Program Development. Dr. Mabrey developed the first virtual reality surgical simulator for knee arthroscopy.

Education:

- Military: United States Army Medical Corps, Brooke Army Medical Center, Major MC, Adult Reconstruction Service
- Fellowship: Clinical Orthopaedic Society Traveling Fellowship, Study of surgical techniques in pelvic osteotomies
- Fellowship: Biomechanics and Total Joints, The Hospital for Special Surgery; New York, NY
- Residency: Duke University Medical Center, Durham, NC
- Medical Degree: Cornell University Medical College, New York, NY

Suresh Nayak, M.D., *Partner*, Wellington Orthopaedics and Sports Medicine, a Mercy Health Partner; *Cofounder, OrthoVitals*, Cincinnati, OH

Areas of Expertise: General Orthopedics, Hip Replacement, Knee Replacement, Shoulder Replacement, Sports Medicine. Passionate about sports medicine, his specialties include: arthroscopic surgery of the hip, knee, and shoulder; rotator cuff repair and instability reconstruction for the shoulder; and cartilage preservation procedures.

Education:

- Fellowship: Adult Reconstruction and Shoulder Surgery, Cleveland Clinic; Cleveland, OH
- Residency: University of Cincinnati, Cincinnati, OH
- Medical Degree: University of Cincinnati, Cincinnati, OH

W. Randall Schultz, M.D., Texas Orthopedics, USPI Facility: Texas Orthopedics Surgery Center, Austin, TX

Areas of Expertise: Orthopaedic sports medicine, complex adult hip and knee joint, ACL reconstruction, minimally invasive knee and hip replacement, computer navigated surgery, and resurfacing hip arthroplasty reconstruction

Education:

- Fellowship: Sports Medicine, University of Texas, San Antonio, TX
- M.S.: Outcomes Research and Evidenced Based Medicine, Dartmouth College, Hanover, NH
- Residency: Orthopedic Surgery, Dartmouth College, Hanover, NH
- Medical Degree: Baylor College of Medicine, Houston, TX

Robert J. Tait, M.D., Orthopaedic Institute of Henderson, USPI Facilities: Parkway Surgery Center & Parkway Recovery Care Center, Las Vegas, NV

Areas of Expertise: Hip and Knee Replacements (total and partial), arthroscopy, osteotomies, joint preserving surgery, advanced shoulder surgery techniques, including arthroscopic repair of rotator cuff tears, and complex revision/failed total hip and knee surgery

Education:

- Fellowship: Adult Reconstruction and Orthopaedic Surgery, Harvard Medical School, Brigham and Women's Hospital
- Residency: University of Nebraska Medical Center, Omaha, NE
- Medical Degree: Medical College of Wisconsin, Milwaukee, WI

Krishna Tripuraneni, M.D., New Mexico Orthopaedics, USPI facility: New Mexico Orthopaedic Surgery Center, Albuquerque, NM

Areas of Expertise: Total Joint Replacement, Knee & Shoulder, Hip & Pelvis, and revisions. He is a fellowship-trained orthopaedic surgeon. He continues to conduct research in an effort to create orthopaedic advances and strategies to improve the clinical care of his patients.

Education:

- Undergraduate Degree, George Washington University, Washington, DC
- Medical School, George Washington University School of Medicine, Washington, DC
- Residency, University of New Mexico Health Sciences Center, Albuquerque, NM
- Fellowship, Stanford University, Stanford, CA

Anesthesiologists

Daniel Deming, M.D., US Anesthesia Partners Central Texas, USPI Facility: Texas Orthopedics Surgery Center, Chief of Anesthesiology, Austin, TX

Education:

- Residency: Duke University Medical Center, Durham, NC
- Medical Degree: University of California, Los Angeles School of Medicine, Los Angeles, CA

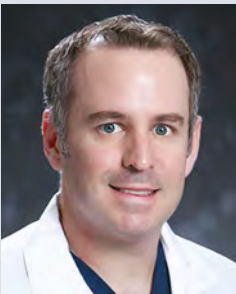

Edward W. Lee, M.D., MAK Anesthesia, USPI facility: Northwest Georgia Surgery Center, Marietta, GA
Edward W. Lee has been practicing in the Atlanta area since 1997.

Areas of Expertise: He has been specializing in ultrasound guided regional anesthesia for outpatient orthopedic surgery over the last 10 years. Dr. Edward Lee, M.D., is a board certified anesthesiologist in Marietta, GA. He is currently licensed to practice medicine in Georgia. He is affiliated with WellStar Cobb Hospital.

Education:

- Internship: Albert Einstein Healthcare Network
- Medical School: Temple University School of Medicine
- Residency: University of Pennsylvania

John Schlitt, M.D., US Anesthesia Partners Central Texas, USPI Facility: Texas Orthopedics Surgery Center, Austin, TX

Education:

- Residency: Duke University Medical Center, Durham, NC
- Medical Degree: University of Texas Southwestern Medical School, Dallas, TX

Stuart Simon, M.D., USPI Chief Medical Officer, Addison, TX

Dr. Simon is a member of the Pinnacle Clinical Governance Board and is Co-Divisional Manager of Physicians Anesthesia Practice.

Areas of Expertise: Pinnacle Human Resources Committee, Attending Anesthesiologist at Baylor University Medical Center for over 20 years, Clinical Assistant Professor at The University of Texas Southwestern Medical School, Chairman of the Department of Anesthesiology at North Central Surgical Center and Medical Director since its inception, Physician Champion for USPI for development and implementation of the electronic health record.

Education:

- Medical degree: The University of Mississippi School of Medicine

Brad Worthington, M.D., Chief Medical Officer, GeneAlign, Medical Director, Perioperative Services and Anesthesiology, Surgery and Recovery Partners, Nashville, TN

Areas of Expertise: At GeneAlign, he and his colleagues perfected the concept and practice of "Perioperativist," developing intellectual property, processes, and procedures for enhanced patient recovery, dramatic decreases in adverse drug effects, length of stay, and spectacular patient satisfaction.

Education:

- Internal Medicine Internship: Hospital of the University of Pennsylvania
- Residency: Anesthesiology Residency as Chief Resident
- Cardiac Anesthesiology Fellowship
- Pediatric Anesthesia Critical Care Fellowship at the Children's Hospital of Philadelphia

Speakers, Moderators, and Panelists Biographies

Reshma Ananthakrishnan, CEO, Ready Surgery, Palo Alto, CA

Reshma is computer scientist who is passionate about making a difference in healthcare. She has leadership experience at healthcare payer, provider, and technology organizations. Currently, she is focused on working alongside industry-leading surgical teams to make surgery safer, simpler, and more cost-effective. Ready Surgery in Palo Alto, CA, is the Surgical Risk Intelligence Platform that helps surgical teams avoid complications and identify appropriate resources. The AI-enhanced, patient-personalized risk management and decision-support solutions optimize every step of the surgical workflow from the first meeting with the surgeon to post-operative recovery, ensuring the best outcomes for every patient.

Steve Blom, RN, MAHSM, CASC, Administrator, Texas Orthopedics Surgery Center, Austin, TX

Mr. Blom has over 25 years of nursing experience. He started his nursing career in Surgical Intensive Care and cardiac cath-labs. He has held several mid-level management positions in hospitals and migrated to the ambulatory surgery industry in 2001. Steve has served in various management positions in the ASC industry, including Regional Director for National Surgical Care and Regional Vice President for AmSurg. Steve was one of the first candidates to receive the CASC certification from ASCA and served on the Board of the Texas ASC Society for three years. Steve joined USPI in January of 2017 and currently serves as the Administrator for Texas Orthopedics Surgery Center in Austin.

Brett Brodnax, President & CEO, USPI, Addison, TX

Brett joined USPI in 1999. Since then, he has served as Senior Vice President (SVP), Executive Vice President (EVP), Chief Development Officer, and President. Brett became CEO in November 2018. Prior to joining USPI, Brett was an Assistant Vice President (AVP) at Baylor Health Care System. Brett is a graduate from Texas A&M University where he received his bachelor's and master's degrees in industrial engineering. He also received a Master of Business Administration (MBA) from The University of Texas at Dallas.

John Bryant, RN, Quality/Performance Enhancement, USPI Service Line Strategy Group, Addison, TX

John comes to Service Line Strategy Group with over 25 years of nursing experience. He received his B.S. in Nursing from Texas Woman's University where he discovered his love for healthcare and delivering quality care to the community. Love of helping others is what drove John into the United States Air Force where he served until 2011, retiring as a Lieutenant Colonel. In the USAF, he felt his greatest honor was bringing wounded soldiers home. John has worked in numerous quality and risk management roles throughout Texas, with his latest endeavor serving the USPI affiliated Dallas/Fort Worth area Baylor Scott & White Health System. John brings compassion, medical and clinical knowledge, and an eye for quality to the Service Line Strategy Group. He looks forward to building relationships with the USPI surgery centers and network physicians to bring a higher standard of care to the communities and patients.

Jean L. Calhoun, RN, Regional Administrator, East West Surgery Center and Northwest Georgia Orthopaedic Surgery Center, Marietta, GA

Jean is a Registered Nurse with 35+ years in healthcare. Her journey in healthcare includes many positions such as surgical tech, materials management, manager of central sterile/distribution, operating room circulator, clinical operations, and administration. Jean joined USPI in 2002 as a Regional Administrator to lead East West Surgery Center and Northwest Georgia Orthopaedic Surgery Center. She previously served as CEO of Metropolitan Surgical Hospital, Department of Community Health, and State of Georgia State Surveyor. She has served on the board of Georgia Ambulatory Surgery Society for the past 14 years and now serves as GSASC President, leading Georgia ambulatory surgical centers to new heights. Jean is happily married with two great children.

Speakers, Moderators, and Panelists Biographies

Deb Caraway, RN, *Director of Implementation, USPI Service Line Strategy Group, Addison, TX*

Deb is a Registered Nurse who received her Bachelor of Science from Texas Women's University. As a Registered Nurse with over 20 years of experience in surgery center management, Deb is confident in her ability to direct activities for the feasibility and implementation of innovative programs. Throughout her career, Deb worked closely with surgeons and their staffs to optimize patient selection and patient care. She is passionate about the role of the perioperative nurse and other team members involved with the patient experience. In addition to providing quality, standardized care and measurable outcomes in the ASC, she understands that pre-operative education, post-operative follow-up, and setting realistic expectations are key to exceptional outcomes for the patient. Deb looks forward to using her management expertise and experiences as an OR nurse to enhance USPI's new service lines.

Trevor Castaneda, *CEO, Baylor Scott & White Medical Center, Frisco TX*

Trevor Castaneda is the CEO at Baylor Scott & White Medical Center – Frisco, leading a staff of more than 600 employees and working alongside an active medical staff of over 300 physicians. Baylor Frisco is a 68-bed joint venture facility in one of the fastest-growing cities in America. The facility has achieved recognition as a Center of Excellence in Hip and Knee Replacement, Spine Surgery, and Bariatric Surgery. Trevor has over 14 years of healthcare experience and has served in hospital executive leadership roles for the last 10 years. Prior to joining USPI and Baylor Scott & White Medical Center – Frisco, Trevor served as CEO of Newport Medical Center in Newport, Tennessee. Trevor is a graduate from Georgia Southern University where he received his bachelor's in Sports Medicine and his master's in Healthcare Administration.

Carol Edwards, RN, BSN, *Joint & Spine Program Manager, USPI Service Line Strategy Group, Addison, TX*

Carol is a Registered Nurse with fine-tuned skills and experience in the development and implementation of USPI's Total Joint programs. Carol joined the Service Line Strategy Group in 2014 after an impressive tenure as a post-anesthesia care unit nurse and orthopedic coordinator. She worked directly in our core business, Baylor Orthopedic and Spine Hospital, where she was a joint educator and PACU staff nurse. Carol's expertise is in orthopedic care and recovery, which has allowed her to lead the charge as Service Line Strategy Group develops and implements the same-day joint and spine programs in our ambulatory surgical facilities and hospitals. Carol enjoys the challenge of ensuring compliance with The Joint Commission standards and developing the metrics for quality, measurable care.

Leann Foltz, *Administrator, Mountain Empire Surgery Center, Johnson City, TN*

Leann Foltz, B.S., R.T. (R), is the Administrator at Mountain Empire Surgery Center in Johnson City, TN. In 2018 Leann completed USPI's Executive Development Program. Prior to the role of administrator, she had been Lead Radiologic Technologist since 2002. Additionally, Leann worked as Cost Control Officer, back-up Materials Manager, and supervisor of Environment of Care. She graduated with honors from East Tennessee State University in 2001, earning an Associate of Applied Science, and was named Mallinckrodt Outstanding Clinical Student. In 2007, Leann earned her Bachelor of Science with summa cum laude distinction at ETSU. She has been a member of the American Society of Radiologic Technologists for 18 years. In her spare time, Leann enjoys hiking with her husband and son and supporting the Nashville Predators.

Donna Higginbotham, *Regional Director, Managed Care – Southeast, Lavonia, GA*

Donna Higginbotham is the Director of Managed Care for the Southeast market for USPI and also serves as Director of Managed Care for Resurgens Orthopaedics in Metro Atlanta and as Managed Care Consultant for the TOC practice in Knoxville. She received her BSED in Exercise and Sports Science from the University of Georgia and earned a scholarship as an Athletic Trainer in the Women's Athletic Department. She's been in the managed care field for 25+ years and has experience in all the major markets across the U.S., as well as ASCs, physician practice, hospital, and ancillary contracting experience.

Speakers, Moderators, and Panelists Biographies

Robin Hollowell, RN, BSN, *Joint Coach*, Mountain Empire Surgery Center, Johnson City, TN
Robin, a native of Roanoke, Virginia, has been with Mountain Empire Surgery Center in Johnson City, Tennessee, for eight years. She is currently the Total Joint Program Coordinator as well as a PACU staff nurse. Her nursing experience dates back to 1980 where she received her BSN from East Tennessee State University. She taught Practical Nursing for several years before leaving to pursue clinical experience in an inpatient setting. She received The Distinguished Clinical Caregiver award in 2017. In her spare time she enjoys spending time with her family and golfing with her husband.

Lisa Jarvis, RN, *Joint Coach*, Northwest Georgia Surgery Center, Marietta, GA
Lisa has been a nurse for 28 years with a focus in orthopedics for the last 24 years. For the past 14 years, Lisa has worked for United Surgical Partners International and has played an active role in the development of the Total Joint Program at Northwest Surgery Center where she serves as Total Joint Coordinator. When asked to share her background for this program, Lisa simply stated: "LOVE MY JOB!"

Tootie Kelley, RN, BSN, *Joint Coach*, Resurgens Surgery Center, Atlanta, GA
As Total Joint Coordinator for Resurgens Surgery Center Atlanta, Tootie Kelley enjoys the role which brings together her favorite aspects of her nursing career: hands-on patient care, patient education, collaboration, and team-building. After graduating with a BSN from Vanderbilt University, Tootie practiced in labor and delivery and became certified as a patient educator. That passion for patient education and patient advocacy has continued throughout her nursing career, from sharing in the excitement of new life in L&D to seeing the TJ patients get a new lease on life with their total joint replacement. As the total joint program at Resurgens has expanded, Tootie has developed a team to address the needs of the patients and the program. The collaboration of ideas and disciplines enriches all of those involved.

Ann Liney, RN, Administrator, Resurgens Surgery Center, Atlanta, GA
Ann started as a PRN nurse with USPI in 2006 and had the opportunity to grow and learn at Resurgens Surgery Center. She was part of the team in 2014, when Resurgens performed their first total joint replacement. Ann is supportive and enthusiastic about the people with whom she works, "We owe the success of the *myJOINT Health Program* at Resurgens Surgery Center to our surgeons, the preparations, and to the education and support from the *myJOINT Health Implementation Team*." Participating in The Operation Walk USA, Ann said, "It was a truly heartwarming experience to help someone in need." As a registered nurse, she received her Bachelors of Science degree from Niagara University.

Rusty McNew, *Chief Nursing Officer*, USPI, Addison, TX
Rusty joined USPI in October 2018. He previously served as Vice President of Quality and Patient Safety at Tenet Healthcare, a position he held for two years. Prior to that, Rusty served in several roles at Tenet Healthcare, including Regional Chief Nurse Executive, hospital Chief Nursing Officer, and Quality Manager. Rusty brings over 31 years of clinical operations experience to USPI, with the past 16 at Tenet Healthcare. Rusty holds a Bachelor of Science in Nursing from the University of Texas at Arlington, a Master of Liberal Arts from Southern Methodist University, and a Doctorate of Nursing Practice from American Sentinel University.

Speakers, Moderators, and Panelists Biographies

Jeannie Montgomery, RN, MBA, *Vice President of Service Line Innovation*, USPI Service Line Strategy Group, Addison, TX

Jeannie is a Registered Nurse with an MBA and holds over 20 years of clinical, operational, and development experience in the ASC environment. Jeannie has been with USPI for 10 years and is a member of the Service Line Strategy Group team as Vice President of Service Line Innovation. Prior to USPI, Jeannie managed physician practices including office-based, Medicare-certified surgery centers. Because of her experience in both the private practice and ASC environments, Jeannie has a clear understanding of the operational and clinical challenges that face both entities. As a nurse, she is a passionate patient advocate and approaches program development from a patient- and family-centric perspective.

Matt Pate, *Senior Vice President*, USPI Service Line Strategy Group, Addison, TX

Matt has over 22 years of healthcare experience working closely with physicians, short-stay surgical facilities, and hospital systems. Prior to his current role, he served as VP Financial Operations for seven years at USPI. For the two years prior to that, he led a very large independent orthopedic group practice in the southeast. He also served six years on two national industry boards. Matt received his BBA from Texas A&M University. Matt, his wife Melissa, and their three children live in the Dallas area.

Ressa Roberts, RN, *Joint Coach*, Texas Orthopedics Surgery Center, Austin, TX

First of all, Ressa is pronounced like Lisa but with an R. She is a proud graduate from the University of Texas at Austin with a Bachelor of Science in Nursing. For the last 17 years, she has worked at Texas Orthopedics Surgery Center (TOSC). More recently, she has completed the Joint Coach Training Program with United Surgical Partners International. She has been instrumental in developing the Outpatient Total Joint Program for TOSC, setting a high standard of care and patient satisfaction.

Michael Stroup, *SVP of Acquisition and Strategy*, USPI, Addison, TX

Michael serves as USPI's Senior Vice President of Acquisitions & Strategy and has over 18 years of health care experience in outpatient provider services, health care investment banking, and management consulting. Before joining USPI in 2009, Mr. Stroup was an investment banker with RBC Capital Markets and JPMorgan in San Francisco and a management consultant with William M. Mercer's Healthcare Practice in Atlanta. Michael's health care experience includes acquiring and funding companies, establishing joint ventures with leading health systems, and implementing managed care strategies for employers and providers. Michael has an MBA from Wharton and an undergraduate degree from University of Michigan.

Jeffrey Thompson, *Director of Operations, Performance Management*, USPI, Addison, TX

Jeffrey is focused on improving and optimizing care delivery across surgical hospitals and ambulatory surgical centers. Prior to joining United Surgical Partners, Jeffrey worked at Mayo Clinic in Rochester, MN, as a Senior Healthcare Engineering Analyst. Jeffrey's major responsibilities included clinical care redesign and quality improvement efforts within the surgical and inpatient hospital practices. Jeffrey has a master's in healthcare administration from Texas Woman's University in Houston, TX, and a master's in physical therapy from Ohio University in Athens, OH.

Speakers, Moderators, and Panelists Biographies

Jill Thrasher, Administrator, Baylor Scott & White Frisco Star, Frisco, TX

Jill is the Administrator at Baylor Scott & White Sports Surgery Center at the Star. She has more than 20 years of experience in healthcare, with 13 years specific to the ambulatory surgery centers. Her career began in the physician setting, however she was lured to ASCs. She has a passion for excellence in healthcare facilities through quality patient care by motivating staff to surpass the standards and be the leader in the industry. She graduated from Texas State University with a degree in Healthcare Administration. In her spare time she enjoys spending time at the lake with her husband and two teenage daughters or watching them play softball and cheer.

Judy Van Dyke, Administrator, Parkwest Surgery Center, Knoxville, TN

Judy is an Administrator at Parkwest Surgery Center in Knoxville, TN. With the support of the incredible team at Parkwest, Judy is responsible for the daily operation of providing high-quality surgical care. Judy has more than 25 years of healthcare experience. In addition to her experience as an ASC Administrator, Judy has served in business office areas of Accounts Processing, Registration, and Management in hospital, physician office, assisted living, and ASC settings. One of Judy's proudest professional achievements as an Administrator is the successful opening of an Ambulatory Surgery Center in Pennsylvania. Judy's belief that if you do the right thing, everything else will fall into place contributes to the excellent service and support provided to patients, families, staff, and physicians.

Lisa Workman, RN, Total Joint Coordinator, Parkway Surgery Center and Parkway Recovery Care Center, Las Vegas, NV

For over 13 years, Lisa has worked closely with a variety of orthopedic surgeons specializing in patient education, coordination, and post-operative care. After obtaining her Registered Nurse license in Nevada, she joined USPI in August of 2017 where she serves as the day-to-day lead within the Total Joint Program, which includes a high-volume ASC and a 5-star luxury recovery care center. She directs the development, growth, implementation, and organization of the total joint program as a whole with priority focus on patient-centered care. From arrival to departure she guides every patient throughout their joint replacement surgery to recovery while maintaining 99% patient satisfaction scores. Outside of work she enjoys time with her better half and raising their two sons. Hobbies include: fitness, poker tournaments, supporting her son in ice hockey, and attending weekly live NHL games supporting the Vegas Golden Knights.

Regina A. Znosko, RN, BSN, CNOR, Clinical Director, Lawrenceville Surgery Center, Lawrenceville, GA

Regina earned her Bachelor of Science degree from Emory University in Atlanta, Georgia. She has 36 years of experience in perioperative services and 10 years of experience as an Orthopedic Clinical Nurse Specialist. Regina currently works as the Clinical Director and Total Joint/Spine Coordinator for Lawrenceville Surgery Center/Resurgens Atlanta. She is a member of AORN's Specialty Assembly for Leadership, Neurosurgery, Orthopedics, Ambulatory Surgery, Infection Prevention, and Sterile Processing.

Speaker, Panelist and Moderator Guidelines and Suggestions: PEARLS

We are thrilled you are joining us for our upcoming Outpatient Joint Summit! Here are some concepts to consider:

Moderator:

As a moderator, we ask for your ideas and will help you prepare questions that will drive the gist of your discussion to the panelists at least 14 days before the event.

- We will set up a call with your panelists before the conference to help assure everyone is on the same page.
- Create and submit 7-10 questions for your panel.
- At the session we ask you to allow each panelist to introduce themselves and provide 1–2 key thoughts on the subject before the Q&A begins.
- In the Q&A it's important that all speakers get plenty of chances to talk and each speaker talks no more than 30–90 seconds at a time. We want to avoid any one person giving a speech during the Q&A.
- Generally it's always helpful to engage the audience for questions as well and we encourage speakers to interact with each other.

Panelists:

Here, we want you to be very interactive with the panel and the audience. We ask that you prepare a handout with key takeaways and generally don't expect you to prepare a PowerPoint presentation.

- At a minimum, be prepared to verbalize 2–3 things you'd like the audience to have re: PEARLS that they can share with their staff when they return to their ASC. We encourage you to engage with other panelists, drive home two to three takeaways for the audience and to enjoy yourself. The moderator should provide you with the questions before the event.
- Panelists involved with the Collaborative Care Session will need to review and edit their facility-specific data, provided by SLSG, and be prepared to provide a brief overview. Slides will be sent for review by April 1st and must be returned by April 15th.
- Time is our most precious commodity and our goal is to have all attendees return to their ASCs with a strand of PEARLS in the form of knowledge and tools they can use in their various roles.
- We ask that when you introduce yourself (1–2 minute introductions), you provide a couple of key thoughts on the PEARLS.

Speakers:

We are really thankful for you agreeing to spend your time speaking and preparing a presentation. To that end, here are a few things to consider:

- Prepare and don't shoot from the hip. Please be thoughtful and prepare in advance. You are considered subject matter experts in your fields and are speaking in your key areas, so it won't take a tremendous amount of time but it is important that you come prepared.
- Think in terms of giving the attendees 2–3 key takeaways of value on PEARLS, i.e. if nothing else, you want them to know "x or y" from this event. Think about what you want your audience to takeaway from the presentation.
- Consider looking for ways to add new anecdotes, and new ideas to your presentation. Everyone loves a good story!
- We find that the best presentations are rehearsed, make sure to go over your presentation at least once before conference day.
- Aim to teach and entertain.
